PROFILE

Junior Full-Stack Developer with hands-on project experience building and deploying applications using React, TypeScript, Node.js, and PostgreSQL. Developed solo and team projects involving authentication, REST APIs, background processing, vector search, and AI-powered document retrieval. Brings nine years of military leadership and client-facing coaching experience, with strong ownership, discipline, and communication skills.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, React Native, Vite, HTML5, CSS3, Tailwind CSS, Material UI

Backend & Data: Node.js, Express.js, REST APIs, PostgreSQL, Prisma, pgvector, Redis, BullMQ, SQL, authentication, validation, Zod

AI & Cloud: RAG, semantic search, embeddings, OpenAI API, Cloudflare R2, Railway, Resend

Tools & Workflow: Git, GitHub, Docker, Postman/Bruno, Jira, Scrum, Linux CLI

SELECTED PROJECTS

Developer Knowledge Hub - Full-Stack AI/RAG Application | Jul 2026 - Sep 2026 | devhub.men

React, TypeScript, Express, PostgreSQL, Prisma, pgvector, Redis, BullMQ, Cloudflare R2, OpenAI

- Built and deployed a production application for securely uploading private PDF documents and querying them through semantic search, with streamed AI answers and persistent source citations.
- Implemented server-side sessions, email verification, owner-scoped data access, and private document storage using Cloudflare R2.
- Designed an asynchronous ingestion pipeline with Redis, BullMQ, and a dedicated worker for PDF processing and embedding generation; deployed the frontend, API, and worker services on Railway.

FitBook - Full-Stack Team Project | TECHIN | May 2026 | [GitHub](#)

React, Node.js, Express, PostgreSQL, Docker, Zod

- Collaborated in a four-person team to build a full-stack fitness application with authentication, validation, and relational data.
- Focused primarily on PostgreSQL database work and backend development within a shared codebase.

AriArt - Client Website | Nov 2025 | ariart.lt | [GitHub](#)

React, JavaScript, Tailwind CSS, Responsive UI

- Independently designed, developed, and deployed a custom responsive website for a real client, translating business needs into a clear site structure and service presentation.
- Collaborated directly with the client on content and design decisions and optimized the experience for mobile and desktop use.

PROFESSIONAL EXPERIENCE

Personal Trainer | Gym Plius Lietuva | Jan 2024 - Present

- Design and deliver individualized strength development and athletic performance programs, define measurable goals, track progress, and adapt plans based on results.

Professional Soldier / Squad Leader | Lithuanian Armed Forces | Jan 2015 - Jan 2024

- Led and trained military conscripts, delivering theoretical instruction and practical training in military fundamentals.
- Coordinated team activities in a structured, high-pressure environment requiring leadership, clear communication, and accountability.

EDUCATION

Junior Programmer Program | TECHIN | Sep 2025 - Jun 2026

Bachelor's Degree in Training Systems | Lithuanian Sports University | 2018 - 2023

LANGUAGES

Lithuanian - Native | **English** - Fluent | **Russian** - Fluent
